INTRODUCTION

PURPOSE OF THE MANUAL

This MANUAL has been designed and developed to serve two main purposes: 1) as a guide for the Board of Regents in carrying out its constitutional responsibility for the control and management of the University, and 2) as a source of information for others concerning the basic policies of the University. Campus groups of administrators, faculty members, students, and staff will continue to contribute materially to the development of these policies.

This Manual and the policies in this Manual are not a contract, either express or implied, between 1) the Board of Regents of WNMU and students, faculty and staff; or 2) WNMU and its students, faculty and staff. This Manual and the policies in this Manual may be modified, changed, altered, revised or discontinued by a majority vote of a quorum of the Board of Regents at any of its meetings, subject to the policy on formulation of policies, and as required for the effective managements of WNMU.

CODIFICATION OF EXISTING POLICIES

This edition of the MANUAL is primarily a codification of existing policies approved by the Regents.

EFFECTIVE DATE

Any policy in this MANUAL becomes effective on the date of its adoption by the WNMU Board of Regents.

SCOPE OF THE MANUAL

In general the policies of the Regents are listed and explained briefly in the main body of the MANUAL. The REGENTS’ POLICY MANUAL as adopted and as amended from time to time, is the basic document governing the University community. Power not expressly, or by necessary implication, delegated by this MANUAL is reserved to the Regents.

MODIFICATIONS TO MANUAL

This MANUAL and the policies in this Manual may be modified, changed, altered, revised or discontinued by a majority vote of the Board of Regents at any of its meetings subject to the policy on formulation of policies. It is the intention of the Regents that proposed modifications will receive adequate publicity and discussion prior to their adoption. Any proposals for amendment originating within the University will first be submitted to the President and then to the Board of Regents, which will take final action after giving due consideration to the opinions of the Faculty Senate, the Staff Senate, and the Administration.

CHAPTER I
General Policies
and Principles

I.1. History of the University

Western New Mexico University was founded in 1893 as a Normal School in Silver City. The Territorial Legislature recognized the need for teachers to train the children of miners and prospectors who were moving into the area. On February 11, 1893, the lawmakers created the Normal School. In 1923, the institution became New Mexico State Teachers College. In 1949, regents voted to change its name to New Mexico Western College, a move they felt would better reflect its regional location. In 1963, the school became Western New Mexico University. WNMU serves the people of the state of New Mexico and its surrounding areas as a comprehensive, regional, rural, public coeducational university and caters to a student body diverse in age, culture, language and ethnic background. Programs offered include teacher education, nursing, criminal justice, business, occupational therapy, art, natural sciences, social work and applied technology.

I.3. Review and Approval of the Mission

This Manual contains a more detailed statement of the mission of the University, all of which is hereby incorporated by reference and made a part of this Manual as set out in full herein. Review and approval of the developing and changing mission contained herein is an important role of the Board of Regents in shaping the master planning for the future of the University. The University’s mission shall be reviewed by the Board of Regents when the Board deems such review necessary and appropriate.

I.4 Role of the Regents

The legal basis for the ultimate authority of the WNMU Board of Regents in carrying out the objectives stated above is quite clearly expressed in the New Mexico State Constitution. Certain statutes on higher education enacted by the Legislature over the years stipulate that additional responsibility and accountability for control and management of each “state educational institution” in New Mexico is vested in a board of regents for that institution. Legal opinions about this “control management” charge, however, support the customary practice of regents nationwide to delegate certain powers to certain individuals and groups at the institution in order to facilitate operation and to ensure a sound basis for certain decisions, particularly those in the academic area.

I.5. Shared Responsibility

The purpose of this statement is to help clarify relationships between the Regents and the Administration, Faculty, and Students of the University.

Management and control of the University are vested in the Regents. Inevitably, the responsibilities of the Regents must be delegated, and so is much of their authority to govern the affairs of the institution subject to overall policy which they establish.

1. As limited by the applicable law, these policies, and other actions of the Regents, the Board recognizes and approves:

   a. the authority and responsibility of the University President and Administration in all matters relating to the operation of the University;

   b. the authority and responsibility of the Faculty, in cooperation with Administration, to set educational policies, to screen faculty personnel, and in general, to deal with all matters relating to teaching and research; and

   c. the rights and responsibility of the Students of the University to provide for their own self-government with authority in the affairs of the student community.

There presently exist adequate procedures for determining most matters affecting University operation. In order that the University may function properly under the authority of those in direct charge of its activities, the Regents ordinarily will not interfere with actions of the Administration, the Faculty, Staff, or Student Government. The Regents cannot, however, ignore the responsibilities of management and control vested in them by the Constitution.
and laws of the State of New Mexico. Thus, they reserve unto themselves the right to consider and determine, if deemed necessary, any matter relating to the University.

I.6. Commitment to General Principles

The Board holds that the following principles are fundamental to the functioning of a university in a free society and that they are fully applicable to Western New Mexico University.

1. The purposes of the University are to improve the quality of life and enhance the dignity of humankind. The means used to achieve these purposes are teaching/learning, research, and public service. The Regents and the vast majority of the students, faculty, staff, alumni, and citizens share the same goals for the University — that it be an exciting and progressive center of education, free from any influence which might deter effective teaching and learning or deter an unfettered search for the truth.

2. Freedom of inquiry and freedom of expression are indispensable elements of a great university. The freedom to express dissent by lawful means, including peaceable assembly and the right of petition, is as important on a university campus as elsewhere in our society. The Regents have protected and defended and will continue to protect and defend the freedom of all members to dissent, however, it must not interfere with the right of others or with the educational process.

3. Broad avenues of communication are essential to the orderly functioning of the University. The Regents invite advice and suggestions about how this institution might carry out its mission more effectively. This invitation is extended to individuals and groups, both on and off campus.

4. In order to assure its autonomy and integrity, the University shall not be an instrument of partisan political action. Expression of political opinions and viewpoints will be those of the individual and not of the University.

5. Academic Freedom: The following statements on academic freedom are taken from the 1940 Statement of Principles on Academic Freedom and Tenure With 1970 Interpretive Comments, as developed by representatives of the American Association of University Professors and the Association of Colleges during 1969.

(a) Teachers are entitled to full freedom in research and in the publication of the results, subject to the adequate performance of their other academic duties; but research for pecuniary return should be based upon an understanding with the authorities of the institution.

(b) Teachers are entitled to freedom in the classroom in discussing their subject, but they should be careful not to introduce into their teaching controversial matter which has no relation to their subject.

(c) College and university teachers are citizens, members of a learned profession, and officers of an educational institution. When they speak
or write as citizens, they should be free from institutional censorship or discipline, but their special position in the community imposes special obligations. As scholars and educational officers, they should remember that the public may judge their profession and their institution by their utterances. Hence they should at all times be accurate, should exercise appropriate restraint, should show respect for the opinions of others, and should make every effort to indicate that they are not speaking for the institution.

6. Universities traditionally have been sanctuaries for diversity of thought, free exchange of ideas, and the search for truth. The Regents fully support the application of these principles at this University, though recognizing that rights carry with them corresponding responsibilities. The Regents also emphasize that this campus will not be a sanctuary for those who use unlawful or violent means to pursue their aims.
I.7. Code of Conduct

1. Business Ethics. Employees of the University shall maintain the highest standards of business ethics in transactions with the University, the State, Federal, and local governments, and with the public.

2. Outside Activities. Employees of the University are expected to perform their duties faithfully and efficiently and never to give rise to suspicion of improper conflict with interests of the University.

3. Gratuities. Employees of the University shall not accept any favor or gratuity from any person, firm, or corporation which is engaged in or attempting to engage in business transactions with the University which might affect or be suspected of affecting the employees’ judgment in the impartial performance of their duties.

I.8. Conduct Leading to Disciplinary Action

WNMU expects that faculty, staff and students will conduct themselves in a manner that respects the communities of which they are members, creates an atmosphere conducive to learning and working and reflects positively on the faculty, staff and students themselves and WNMU.

It is important, therefore, to clarify the types of conduct that are considered to affect adversely the University’s educational function, disrupt community living on campus, or to interfere with the right of others to the pursuit of their education or to conduct the University duties and responsibilities. In an effort to accomplish this, but without intending the list to be all-inclusive, the following is set forth:

a. Any member of the University community -- student or member of the faculty or staff - who engages in or attempts to commit or engage in any of the following conduct shall be subject to appropriate disciplinary procedures and sanctions:

1. Obstruction or disruption, by any means, of teaching, research, administration, disciplinary procedures, or other University or University-authorized functions, events, or activities.

3. Physical abuse, the threat of physical abuse, or intimidation or other conduct which threatens or endangers the health or safety of any person on campus or at any University-authorized function or event.

4. Theft of, damage to, or defacement of property of the University or the property of any person on campus.
5. Denial of, or interference with any person’s lawful right of access to, use of, or exit from any University facility or with any other lawful right of any person on campus.

Willfully refusing or failing to leave the property of, or any building or other facility owned, operated, or controlled by the Board of Regents upon being requested to do so by an authorized representative of the University, if the person is committing, threatening to commit, or inciting others to commit, any act which would disrupt, impair, interfere with or obstruct the lawful mission, processes, procedures, or functions of the University.

15. Consumption of alcoholic beverages on campus except as specifically authorized as outlined in policy.

As soon as reasonably possible after the Declaration of Emergency, the President shall inform available Regents of his/her action. The Regents shall have a plan to inform all board members of such action. When the President determines that the serious threat has passed, he/she shall, after consultation with available regents, declare the State of Emergency to be at an end.

c. During a State of Emergency, the President, in the exercise of reasonable judgment in the circumstances, is authorized to take whatever actions he/she finds necessary in order to safeguard persons or property or to maintain the University’s educational function. The Board of Regents of Western New Mexico University is constitutionally and legally responsible for the control and management of this institution. This responsibility and authority may be exercised only by the Board as a unit. Its individual members are without power to act separately in connection with University business, except when one of the Board’s officers is specifically authorized to act in behalf of the Board. Whether referred to as “the Board” or as the “the Regents” throughout this MANUAL, the meaning is the same. In carrying out their responsibility, the Board may and quite often does delegate limited powers to certain individuals and groups within the University, but such delegation of specific power and authority on a limited basis does not relieve the Board from its ultimate responsibility for the entire institution. Similarly, the Board may withdraw or modify delegated authority, but not on a retroactive basis.

II.2. Duties and Functions
(Revised May 10, 2001)

Under its broad responsibility for the management and control of the University, the Board has many specific duties and functions too numerous to list here. Its power to control, manage, and govern the institution necessarily includes exercise of wide discretion—including discretion in what actions it takes directly and in what authority it delegates to other persons or bodies within the University.

Listed below are those duties and functions considered by the Board to be among the most important:

1. Select and appoint a President of the University who serves as the University’s Chief Executive Officer.

2. Adopt policies for the effective management of the University.

3. Evaluate the mission of the University when the Board deems such review necessary and appropriate.

4. Delegate authority and responsibility deemed by the Board as appropriate and necessary for the most effective operation of the University, with full understanding that such delegation implies the right of the Board to withdraw or modify the delegation when it is considered wise to do so.

5. Approve or authorize others to approve all contracts between the University and other parties, including those contracts for services rendered, equipment and materials to be purchased, construction of buildings, and care and preservation of all University property.

6. Approve, by budgeting, the expenditures of all monies.

7. Approve requests for sabbatical leaves in accordance with existing policies.

8. Approve constitutions, by-laws, handbooks and other governing documents of student, faculty and staff governance bodies.
9. Lease, rent, purchase, and sell land on behalf of the University.

10. Approve all degrees to be awarded by the University including both earned and honorary degrees.

11. Borrow money, as provided by law, for the purpose of erecting, altering, improving, furnishing or equipping buildings, for acquisition of land for use by the University, or for other authorized purposes.

12. Bear legal responsibility and authority for all aspects of the University’s operations.

13. Take any other actions required by law to be decided by the Board.

II.3. **Composition**

The Board is composed of five Regents who are appointed by the Governor of the State and confirmed by the Senate. One of the members of the Board of Regents is required to be a member of the student body of WNMU. The terms of appointment of the non-student members of the Board of Regents are staggered terms of six years. The student Regent serves a two-year term. The Governor and State Superintendent of Public Instruction are designated as ex-officio, non-voting members, and the Chair of the Faculty and Staff Senates and the Student Body President are ex-officio non-voting members.

II.4. **Organization**

11. The Board will review and determine, at least annually, what notice for a public meeting is reasonable.

II.13. Agenda for Meetings

The President of WNMU is responsible for preparation of a draft agenda for Board of Regents meetings. The President of WNMU, after consultation with the Board Chair and the other Regents, shall have the Office of the President produce copies of the agenda for the Regents and the President of WNMU. The Office of the President will post the agenda on the University’s website.
and make the agenda available to those requesting it at least seventy-two (72) hours prior to a regular or special meeting of the Board.

Persons or groups that want to place an item on the agenda of a Board of Regents meeting are required to submit a letter to that effect to the Chair of the Board, through the President of WNMU, not less than ten (10) calendar days prior to a regular meeting.

In addition, the person or group shall submit the following information with the letter:

1. the item the person or group wants to place on the agenda;

3. the specific action requested from the Board of Regents;
4. the name of the person(s) designated to speak;
5. the approximate length of the presentation.

Final decisions to grant or deny requests by members of the public to place an item on the agenda will be rendered by the Chair of the Board, after consultation with the President of WNMU.

The Chair of the Board or any Regent may request or allow other persons present at a meeting to address the Board, both on topics already on the agenda and on topics introduced initially at the meeting or in the Regents’ Information Session. However, no assurance can be given that the Board will provide any person or group such an opportunity.

The written agenda will normally be followed. Except for emergency matters, the Board shall take action only on items appearing on the agenda.

II.14. Minutes of Meetings

Minutes of all open meetings will be kept and are open to public inspection. The minutes will include as a minimum the date, time and place of the meeting, the names of members present and absent, the substance of all proposals considered, and record of any decisions and votes taken which show how each member voted. Draft minutes will be prepared by the Office of the President within ten (10) working days of the meeting. Minutes will become official only after approval at the next meeting at which a quorum of the members of the Board are present.

II.15. Regents Information Session

The Regents Information Session, which was formulated to enhance the relations of the University and the public, will consist of a 15-minute period of time following completion of the Board’s formal agenda at regular meetings. During this period, individuals may address the Board concerning matters not covered in the agenda, concerning Western New Mexico University and of interest to the Board, excluding grievances and personnel matters for which procedural guidelines have been established. This session will consist of a 15-minute total period of time and each individual presentation will be limited to three minutes. No assurance can be given that every person who would like to address the Board will be able to do so, given the time available. The Board will have the prerogative of responding to items presented. As to items not covered in the agenda, the Board’s response will be limited to either (a) inviting the
individual to submit the item for possible placement on the agenda of the next upcoming regular Board meeting, or (b) referring the person making the comment to the appropriate member of the administration who is responsible for resolution or further consideration of the issue to report back to the Regents.

II.16. **Conflict of Interest Policy**
(Adopted March 1, 1991)

No Regent shall have any direct or indirect financial interest in any contract for building or improving any of WNMU or for the furnishing of supplies or services to WNMU, except as permitted pursuant to the University Research Park Act or unless it complies with provisions of the Governmental Conduct Act and the Procurement Code.

Any conflict of interest or probable conflict of interest on the part of any Regent shall be disclosed to the other members of the Board and made a matter of record, either by an annual procedure or when the interest becomes a matter of Board action.

Any Regent having a conflict of interest on any matter shall not vote or use his/her personal influence on the matter and shall not be counted in the quorum for the meeting. The minutes of the meeting shall reflect that disclosure was made and the abstention, for voting and quorum purposes.

The foregoing requirements shall not be construed to prevent the Regent from briefly stating his/her position on the matter nor asking appropriate questions of other Board members since his/her knowledge may be of assistance.

All Regents must file a Financial Disclosure Statement with the Ethics Administration of the NM Secretary of State.

II.17. **Board of Regents Scholarships**

With funds provided by the State for this purpose, scholarships are awarded in the name of the Board of Regents in conformance with applicable law.

II.18. **Formulation of Policies**
(Approved 12-13-90)

Policies may be adopted after consideration at a meeting of the Board. The formal adoption of policies shall be recorded and noted in the minutes of the Board.

Policies are subject to amendment only by a majority vote of a quorum of the Board.

If a quorum of the Board votes to do so, the requirements of a policy may be waived at any meeting in order to permit a specific action.

II.19. **Periodic Re-evaluation of Policies**

The Board of Regents deems it highly important for University policies to be re-evaluated periodically. The purposes of such re-evaluation are at least two-fold: first, to remind both new and continuing members of the University community (including the Regents themselves) about policies currently in effect; and to afford the Regents convenient opportunities to modify policy when deemed desirable.
The Board shall set aside a part of one or more meetings, when deemed appropriate by the Board, for the purpose of discussion and/or re-evaluation of University policies.

II.20.  **Compensation**

Regents are not remunerated for their services. Each member of the Board of Regents shall be reimbursed for travel and other expenses incurred in the discharge of official duties as provided in the Per Diem and Mileage Act (NMSA 1978 Sections 10-8-1 through 10-8-8) and in accordance with University policies.

II.21.  **Orientation of New Regents**

When a new Regent is appointed to the Board, he or she will be briefed by the President of the University. The President will explain the overall organization of the University and provide appropriate information.
CHAPTER III
The President

III.1. The Office of the President

The President of the University is the Chief Executive Officer and is recognized by the Regents as the ranking officer of the University.

III.2. Appointment

The President of the University is appointed by and reports directly to the Board of Regents.

When the position of President becomes or is about to become vacant, the Regents conduct a search for qualified candidates for the Presidency. The Board is guided in this effort by ethical and affirmative action principles and procedures and may be aided by an advisory search committee which it appoints and/or outside consultation services. The Board has the sole responsibility for appointing a President of the University.

Presidential Search Committee Code of Ethics

As a member of the WNMU Presidential Search Committee, I agree to protect the integrity of every prospect and candidate and of the search process. Therefore, my signature attests to my agreement to adhere to the following principles:

- I certify that I will not be a candidate for the position. Any appearance of real or potential conflict of interest between me (or any member of my family) and a prospective candidate will be disclosed promptly and completely to the Chair of the Search Committee.
- Because it is the intention of the Board of Regents to obtain broad representation and diversity in the membership of the Committee, I will place the total interests of the University as a whole ahead of all other considerations. My primary focus will be the Committee’s charge to attract, review, screen and refer the best qualified candidates to meet the Board of Regents goals. I understand that the Search Committee must work together to achieve this goal and I will strive to help the group resolve differences of opinion in a constructive and professional manner.
- Only the Chair of the Search Committee, who is also the Chair of the Board of Regents, or his designee, is authorized to speak to the media or the Presidential Search Firm, Academic Search, Inc., on behalf of the Committee regarding the search.
- Specifically, I will adhere to the following code of responsibility, accuracy, confidentiality, and integrity:
  a. I pledge to respect the absolute confidentiality of all prospective candidates. I will not reveal to anyone, the names of, or any information about, any candidate before or after the Committee completes its work. I understand that the names of finalists will be made public by the Board of Regents as required by state law.
  b. I will avoid permitting personal interest to distort or misrepresent the facts in all written communications and/or discussions.
  c. I will be fair and unbiased and I will guard against inaccuracies, carelessness, and distortion made through either undue emphasis or omission of information.
d. I will diligently review all relevant materials prior to group discussions.

e. I understand I serve at the pleasure of the Board of Regents.

III.3. Relationship Between the President and the Board of Regents

The functions of the Board are regarded as essentially lay in nature rather than professional. Its primary responsibility is to establish policy for the University and then hold the President of the University responsible for seeing that approved policy is implemented throughout the institution.

The Board of Regents is well aware of the critical relationship and necessary interdependence between policy-making and administration at the University and has by its resolutions and actions established what it deems to be a proper balance between these two functions.

III.4. Responsibilities

All decisions and actions of the President must be in accordance with general policies approved by the Board of Regents and are subject to the right of the Board to intervene. This right is rarely exercised, however, for both philosophical and practical reasons. The magnitude and complexity of the operation of the University make it neither wise nor feasible for the Regents to intervene in decisions of management, except in the most unusual circumstances.

Under the general authority granted to the President of the University by the Regents by these policies, the President has duties and responsibilities including but not limited to:

1. the administration of Board policies regulating institutional mission, goals and objectives, instructional program, research, public service, financial affairs, student affairs and physical facilities;

2. the direction of current and long-range planning relating to his or her institutional responsibilities;

3. the development and maintenance of an appropriate administrative organization and governance structure to facilitate the most efficient and effective utilization of institutional resources in the achievement of the institution’s mission and goals;

4. the development and maintenance of a personnel system concerned with the recruitment, selection, assignment, supervision, evaluation, promotion, and retention or tenure of all personnel employed by the institution;

5. the planning and development of the means for securing and maintaining the resources necessary for the achievement of the institution’s mission at the highest possible level of quality, including the presentation to appropriate funding agencies of the needs of the institution;

6. the preparation and presentation of the annual operating and capital budgets and the institutional allocation and supervision of all appropriated and other funds;

7. the development and maintenance of the facilities, materials, equipment, and services necessary for the support of institutional functions;
8. the communication of the policies and views of the Board to the institutional community and other constituencies and, conversely, communication of the views of the University’s constituencies on appropriate issues to the Board;

9. the presentation of information to the Board about the current and prospective condition of the institution, including its goals, accomplishments, and potential problems;

10. the representation of the University to relevant external constituencies;

11. the development and maintenance of academic programs to achieve the institution’s missions and goals;

12. the termination of his or her association with the institution in a professional manner that does not unnecessarily discredit or damage public confidence in the Board or the institution; and

13. re-delegating authority as deemed necessary.

III.5. Terms and Conditions of Employment

A. The appointment status, academic rank, tenure status, term of office, compensation, prerequisites of office duties, extent of services, working facilities, expenses, vacations, and other appropriate conditions of employment, shall be set forth in an Employment Agreement, which shall be dated and signed by the President and the Chair of the Board of Regents.

B. Termination of the President for Just Cause. The following procedures shall be used in the event that a majority of the members of the Board determine that there may be reason to terminate the President for just cause. The term “just cause” shall mean a breach or violation by the President of any of the terms or provisions of this Employment Agreement, and shall also encompass its normally understood meaning in employment contracts, including as examples, dishonesty, willful misconduct, the refusal or unwillingness to perform the duties and responsibilities of the office of the President in good faith or to the best of one’s ability, insubordination, prolonged absence from duty without the consent of the Regents, any conduct that involves moral turpitude or that would tend to bring serious public disrepute upon the University or any violation of New Mexico or federal law or violation of University policy.

1. Confidentiality. The University and the President agree that serious harm could be caused to the University by public hearings related to the termination of the President for just cause. As a result, the parties agree that any meetings or hearings regarding the President’s termination for just cause shall be held in closed sessions of the Board, and agree to maintain the confidentiality of these proceedings to the extent possible under the law. The President expressly waives any statutory right he may have to an open hearing regarding her termination for just cause.

2. Pre-Termination Process.

a. If a majority of the Board believes that there may be reason to terminate the President for just cause, the Chairman of the Board shall provide written...
notice to the President of the bases for such termination. At his option, the Chairman may place the President on paid administrative leave immediately upon delivery of the written notice.

b. A closed meeting of the Board shall be held no less than seven (7) days and no more than fourteen (14) days from delivery of the written notice for the purpose of providing an opportunity for the President to respond to the bases for termination and for the Board to deliberate regarding the termination. The President may be accompanied at this meeting by a representative of the President’s choice to provide advice to the President. However, such representative may not participate in the meeting.

c. At the President’s option, the President may respond to the bases for termination in writing, such document to be delivered to the Chairman of the Board no later than seven (7) days from delivery of the written notice.

d. If, after the Board considers the President’s response to the bases for termination, the Board determines that there is no basis to terminate the President for cause, no further action need be taken by the Board, or the Board may initiate the procedure to terminate the President’s employment at the request of the Board. If the Board determines that there is a basis to terminate the President for cause, such vote of the Board must be taken at an open, public meeting of the Board.

3. **Post-Termination Process**

   a. The President may appeal his termination for cause by providing written notice of appeal to the Chairman of the Board no later than ten (10) days after the vote of the Board terminating the President’s employment.

   b. No more than sixty (60) days after receipt of the President’s appeal, the Board shall hold a post-termination hearing in closed session. This deadline may be extended by agreement of the parties or by the Chairman of the Board if he determines that extenuating circumstances exist to require such an extension.

   c. The Chairman of the Board shall preside over the hearing. The Board shall be represented by University counsel, who shall present the bases for termination and evidence to support those bases. The President may be represented by counsel, may present and cross-examine witnesses, and may submit documents for the consideration of the Board. The Chairman shall establish procedural rules for the hearing as necessary. The Rules of Evidence shall not apply; however, the Chairman of the Board shall have the right to exclude any evidence that the Chairman determines is irrelevant or unnecessarily duplicative.
d. At the conclusion of the hearing, the Board shall consider whether sufficient bases existed to terminate the President for cause. Such vote shall be taken at an open public meeting of the Board. If the Board determines that the termination for cause was justified, this decision shall be final and subject to no further administrative review or appeal. If the Board determines that termination of the President for cause was not justified, the University shall pay to the President the severance described in his Employment Agreement, if any.

CHAPTER IV
The Faculty

IV.1. Role

The Board of Regents fully appreciates the role of the Faculty in carrying out the stated objectives of teaching/learning, research, and public service. The Board therefore delegates to the Faculty, in cooperation with the Administration and subject to review by the Board, responsibility for policies and actions of a specifically academic character such as curricular changes in existing degree programs, degree and graduation requirements, candidates for degrees, and matters pertaining to the immediate academic governance of all undergraduate and graduate units. Included in the areas in which formal approval by the Board is required, following review and action by the Faculty, Administration, and other sources, are: formulation and revision of institutional aims, creation or abolition of degree programs or of majors; candidates for degrees; requirements for admission of students; granting tenure; policies for appointment, promotion in rank, and dismissal of faculty members; policies governing leaves for faculty members, and faculty welfare issues as those related directly to fiscal and institutional issues.

The Regents cannot ignore the responsibility for management and control vested in them by the Constitution and laws of the State of New Mexico. Thus, they reserve unto themselves the right to consider and determine, if deemed necessary, any matter relating to the University. However, the Regents will ordinarily not interfere with actions of the Administration, the Faculty or Student Government.

IV.2. Appointment

Each year the Board of Regents authorizes the President and his or her designees to negotiate contracts with new and continuing faculty members and administrators, for services to be rendered. Authorization to negotiate contracts is given with clear understanding that all procedures leading to proposed contractual agreements will be in accord with applicable law and the policies of the Regents.

IV.3. Duties and Responsibilities of the Faculty

All faculty members are expected to be directly involved in the main objectives of the institution: teaching/learning, research, and public service. The extent to which any faculty member is involved in sponsored research or any appreciable amount of public service as a part of his/her assigned duties depends upon what additional and specially earmarked funds are made available to the University to support these activities.

Faculty members are also encouraged to engage in some form of scholarly research or creative activity over and above their teaching responsibilities. With prior administrative approval, such research or creative activity, along with sponsored research and public service supported by outside agencies, may be counted as part of a faculty member’s total academic load, thereby reducing the required teaching load in order to allow time for these other activities.
The principal duties and responsibilities of WNMU faculty members are listed below:

1. **TEACHING** - (in classrooms, seminars and laboratories) The teaching function includes (a) keeping up with the latest developments in the subject field being taught; (b) designing new courses and revising old ones; (c) preparing lectures and demonstrations; (d) giving lectures and demonstrations and leading discussions; (e) designing, giving, and evaluating results of tests and examinations and other written assignments; (f) keeping office hours for consultation with students and others; and (g) evaluating student performances and assigning grades to be entered on permanent records.

2. **UNSPONSORED RESEARCH** - Research not supported by outside agencies.

3. **SPONSORED RESEARCH AND PUBLIC SERVICE.** As indicated above, these activities are carried on when special funds are made available to support them.

4. **FACULTY COMMITTEE WORK/FACULTY SENATE SERVICE**

5. **ACADEMIC ADVISING**

6. **OTHER CAMPUS AND COMMUNITY RESPONSIBILITIES** - Statutes applicable to the University state that the Board of Regents shall have full and complete power and control over the University, but may delegate authority or functions to others within the University, as deemed appropriate, for the efficient functioning of the University.

Subject to law, these policies and other actions by the Regents, the Regents delegate this power to the Faculty which, as by custom and practice, have been given general responsibility for the teaching function, which includes designing degree programs, choosing and developing courses, and selecting textbooks.

**IV.4. Academic Load**

The term “academic load” encompasses all officially recognized University duties carried out by an individual member of the Faculty at any given time. Teaching in regularly scheduled classes is basic, of course, but overall load may also include scholarly or sponsored research, creative work, committee assignments, student advisement, direction of thesis, and administrative or supervisory duties. Policies regarding academic load for faculty will be developed by the Vice President of Academic Affairs, in consultation with the faculty and the President.

**IV.5. Policy on Class Size**

(Adopted November 16, 1990; Revised 1999)

Consistent with its stated mission, the University shall conduct classes of a numerical size and nature to meet the needs of the student body in its rural service area. Policies regarding class size will be developed by the Vice President of Academic Affairs, in consultation with the faculty and the President.
IV.6. **Promotion in Rank**

It is the policy of the University to promote faculty members to higher academic ranks when they qualify, in accordance with policies for promotion in the Faculty Handbook.

IV.7. **Tenure**

Tenure is granted to faculty members in accordance with policies within the Faculty Handbook.

IV.8. **Dates of Campus Duty**

Except for authorized holidays, vacations, or other recesses listed in the academic calendar or otherwise announced, it is the obligation of each faculty member to perform all assigned duties and commitments within the period designated by the beginning and ending dates of service in a particular contract period. There is no minimum number of hours of service to the University required of faculty members, but fulfilling their obligations to the University generally results in a work week of at least forty clock hours for each faculty member. Each faculty member is expected to be available for campus duty during the period specified by the individual contract.

IV.9. **Employment and Advanced Degrees**

1. Faculty Members - No faculty member may be awarded an advanced degree by the University in the same discipline or program in which he or she is employed. Faculty members are encouraged, however, to take courses outside their own disciplines, whether or not toward a degree. (See Faculty Handbook for further details.)

2. Graduate Students - A graduate student working toward an advanced degree at WNMU may, in accordance with applicable policy, be appointed as a teaching assistant in the area of his or her major or, with appropriate approval, in an area other than the major.

IV.10. **Graduate Student Academic Staff**

The terms and conditions of every appointment to a graduate or teaching assistantship will be stated in writing, and a copy of the appointment document will be supplied to the graduate or teaching assistant.

IV.11. **Retirement**

Opportunity is provided for retirement under the provisions of the New Mexico Educational Retirement Act regulations.

IV.12. **Western New Mexico University Incentive Retirement Plan**

I. **Policy Statement:**

The Board of Regents of Western New Mexico University (“WNMU”) hereby determines that it is in the best interests of the WNMU to adopt a plan whereby tenured faculty members may negotiate for and take advantage of an appreciable
and substantial monetary benefit in consideration for voluntary selection of early retirement and foregoing continuous tenure appointment at the conclusion of a special academic year.

A. The goals of such a program, which the Board of Regents deem to be of benefit to WNMU and its faculty, are:

1. to provide flexibility for tenured faculty members to consider new and alternative career opportunities.

2. to provide flexibility and avoid potential problems in staffing and associated costs for the academic programs of WNMU.

B. Now, therefore, the WNMU Administration is hereby authorized to publish the following as the WNMU Incentive Retirement Plan:

The voluntary WNMU Incentive Retirement Plan is a benefit program of WNMU which is available only to eligible tenured faculty as hereafter provided. This benefit program shall exist separate and apart from all other employee benefit programs provided by the Board of Regents Policies.

II. Eligibility:

A. Faculty members requesting benefits under the program must:

1. Reach age 60 to 69 on or before July 1 of the calendar year preceding the proposed date of incentive retirement. Faculty members who are otherwise eligible for the program except for age may negotiate an individual agreement for incentive retirement when in the sole and exclusive discretion of the WNMU President, it is determined that such an arrangement is in the best interest of the individual and WNMU.

2. Be employed under appointment with tenure, with ten or more years of continuous service at WNMU. Periods of approved leave or sabbatical shall not constitute an interruption of continuous service.

III. Process for Requesting Benefits:

A. To request benefits under the program, a faculty member must:

1. Provide a written request to his or her Departmental Chair. All requests shall be reviewed by the Vice President of Academic Affairs.

2. Final approval authority shall rest with the President, and the President shall possess the discretion to delay a request for incentive retirement if such action is deemed to be in the best interest of WNMU.

IV. Time Limits:

A. Eligible faculty members will have an opportunity to indicate their intention to participate in the WNMU Incentive Retirement Plan by submitting written request by October 15 of the academic year the faculty member intends to retire.
V. Incentive Retirement Plan:

A. Participants will receive a financial incentive in exchange for surrender of tenure and complete termination of employment, as specified in a written Incentive Retirement Contract, described below.

Specific dollar settlement incentive amounts will be based on a percentage of the participant’s final base pay, calculated as of the year of participant’s election to participate in the WNMU Incentive Retirement Plan.

B. The amount of the incentive retirement payment shall be calculated as provided below:

*On or before July 1 of each year preceding the academic year in which individual elects to participate in the program. No benefit shall be payable to an individual requesting to participate who has reached age 70 on or before July 1 of the year preceding the request.

C. Payment:

i. Payments under the WNMU Incentive Retirement Plan for participants will either (i) be made in a lump sum within thirty days of termination, or (ii) be made in equal monthly installments for the period specified above on normal faculty paydays, beginning thirty days from the effective date of termination; however, a modified written payment schedule that conforms to Section IX.A.6 of this WNMU Incentive Retirement Plan may be negotiated between the participant and WNMU.
D. Other Benefits:

ii. A member eligible for full ERA retirement benefits at the time he or she becomes an early incentive retiree will no longer have deducted contributions for ERA from their incentive salary payments. WNMU shall assist in processing ERA retirement at the time of incentive retirement and termination.

iii. In addition to the incentive retirement payment provided for above, a faculty member eligible for early incentive retirement shall be permitted to retain coverage and to participate in WNMU’s insurance programs under the same terms and conditions as are extended to all regularly retired faculty members.

VI. Negotiated Agreement:

Faculty members who are eligible for the program may negotiate an individual agreement for incentive retirement when in the sole and exclusive discretion of the WNMU President, it is determined that such an arrangement is in the best interest of the individual and WNMU. The amount of incentive settlement, benefits, and payment schedule can be negotiated in such cases.

VII. Delayed Participation:

A. Circumstances may exist under which it is not possible, practical, or in the best interest of WNMU for employment to be terminated in the next academic year. While the decision concerning incentive retirement settlement must be made in the established time frame, termination of employment may be delayed for up to one year in the discretion of the President.

B. In exceptional cases, the President may extend the termination of employment up to one additional year when such an extension is imperative to retain the scope and quality of the academic program involved. The President shall make a written determination justifying the circumstances warranting such additional delay.

C. The individual shall, in either case, be retained either full-time or part-time on a “Special Appointment” with a stated expiration date.

D. In cases in which termination is delayed by WNMU, the participant will receive the percentage incentive payment which would have been applicable had there been no delay, beginning thirty days from the effective date of termination upon the terms specified in the Incentive Retirement Contract. In cases in which delay of termination is requested by the participant, the incentive payment will be based on the age of the participant at the time of actual termination.

VIII. Other Benefits and Privileges:

A. Faculty members who elect to participate in the WNMU Incentive Retirement Plan shall be eligible to receive, in addition to the benefits of
the program, all other applicable WNMU benefits and privileges continuing after retirement as are received by retired faculty who have not participated in the WNMU Incentive Retirement Plan.

IX. Form of Agreement:

A. Each Incentive Retirement Plan agreement will be reduced to writing in an Incentive Retirement Contract form which shall include the following.

1. Participant’s birth date.

2. Number of years on “Continuous Appointment” at WNMU.

3. Effective date of Incentive Retirement Contract.

4. Date of request for benefits and effective date of termination of Employment.

5. Statement of voluntary retirement, resignation, and waiver of tenure rights and claims which complies with the Older Workers Benefit Protection Act.

6. Amount of Incentive Retirement payment (or the terms of an objective, nondiscretionary formula for calculating the amount of Incentive Retirement payment) and payment schedule.

7. Other benefits or privileges to which the faculty member is entitled and condition for receipt of such benefits.

8. Terms of delayed participation if applicable.

10. Other applicable or negotiated terms and conditions of the Incentive Retirement

B. An Incentive Retirement Contract becomes an irrevocable agreement upon acceptance by the Administration and approval of the President and after the expiration of seven (7) days from the date signed by the participant. An Incentive Retirement Contract supersedes any and all rights a participant may have under the terms of his or her contract, WNMU policy or any law or regulation, including tenure rights, and each individual who enters into an Incentive Retirement Contract waives any rights not specifically retained herein and agrees to release WNMU from any and all claims or liability other than for performance of the Incentive Retirement Contract, so long as such waiver and release comply with the Older Workers Benefit Protection Act.

C. Any amendment to an Incentive Retirement Contract shall comply with Section 409A of the Internal Revenue Code, as amended (“Section 409A”).
Any agreement to accelerate or postpone payment under this WNMU Incentive Retirement Plan shall be consistent with Section 409A and the regulations promulgated thereunder.

D. Each individual who requests incentive retirement is encouraged to seek legal counsel for consultation with regard to the Incentive Retirement Contract.

E. Each individual who requests incentive retirement is encouraged to seek independent tax advice and shall have the opportunity to consult with his or her tax advisor. WNMU will not and does not provide any tax advice in connection with any Incentive Retirement Contract or this WNMU Incentive Retirement Plan.

X. Death of Participant:

A. In the event of the death of a participant, his or her beneficiaries shall receive the Incentive Retirement payments as provided under the terms of the Incentive Retirement Contract.

XI. Non-coercion:

A. No individual shall be coerced into participating in the WNMU Incentive Retirement Plan or have his or her employment terminated for the purpose of preventing him or her from becoming eligible to participate.

A. This Plan shall be interpreted and implemented in a non-discriminatory manner in accordance with the WNMU Affirmative Action Plan, the Age Discrimination in Employment Act (ADEA) and the Older Workers Benefit Protection Act, 29 USC & 621 et seq.

XII. Amendment of Plan.

Nothing in this WNMU Incentive Retirement Plan shall be construed to create a property right, legitimate expectation or entitlement of any faculty member to participate in the benefits of this WNMU Incentive Retirement Plan.

The Board of Regents shall review this Plan, when the Board deems appropriate, and reserves the right to amend, modify or terminate this program at any time subject to six months notification to eligible faculty members; all such amendments shall comply with section 409A. Such action shall not affect the benefits payable to faculty members who have executed Incentive Retirement Contracts as of the effective date of such change.

IV.13. Contracts

Each faculty member employed by the University, except those with temporary part-time status, is offered a written contract each year. When this contract is signed by the faculty member and the President or his/her designee, it is binding on both parties for the period of time indicated, unless terminated in accordance with provisions in the contract and applicable policies.
All contracts issued and establishing a relationship between a faculty member and the University shall make reference to and be considered to include all conditions of employment covered in the Regents Policy Manual and the Faculty Handbook.

IV.14. Faculty Contracts for Administrators
(Approved September 2012)

Administrators who report directly to the President or to the Provost/Vice-President for Academic Affairs are issued faculty or staff contracts, as appropriate, on initial appointment and thereafter for each fiscal or academic year. Upon initial appointment these administrators may be given tenure and rank by the President with consultation with the appropriate academic department. When administrators serve only under authority of and with the approval of the President, their appointments are not governed by any consideration of tenure and a codicil to this effect shall be included in their contracts. If administrators hold faculty rank and tenure, they have retreat rights to return to the faculty if the President or the Provost/Vice-President decides not to continue them in an administrative position.

a. ADMINISTRATORS TO BE ISSUED FACULTY CONTRACTS

The Vice-President for Academic Affairs and the academic department heads are ex-officio members of the faculty and are issued faculty contracts. In addition, a member of the faculty who is assigned to an administrative position and who reports directly to the President or to the Vice-President for Academic Affairs, will retain faculty rank and tenure and will continue to receive a faculty contract unless the faculty appointment is relinquished. It is expected, on occasion, that such administrators will continue some teaching duties, with an appropriate portion of salary to be paid by the academic department concerned. Faculty Handbook policies apply to each employee whose appointment is confirmed by means of faculty contract.

b. ADMINISTRATORS TO BE ISSUED STAFF CONTRACTS OR FACULTY CONTRACTS, DEPENDING UPON DESCRIPTION OF THE POSITION

Administrative positions in the academic area are sometimes offered to those who may or may not have established a tie to a regular academic department.

Teaching duties required by the position are usually minimal or less than half-time. Such positions are confirmed by staff contracts and are governed by the Staff Handbook. If a regular academic department offers faculty rank, that part-time rank is shown as a secondary title on the staff contract. If an employee who is primarily a staff member, also holds faculty rank in an instructional department, ONLY those aspects of the employee’s appointment dealing with faculty status are governed by the Faculty Handbook.

Should such an appointee wish to assume a significant teaching commitment in a department, subject to the recommendation by the academic unit and approval by the senior administrator to whom the staff member reports, the possibility of a tenure track appointment and eventual tenure in the academic unit may be considered. At least half-time teaching would be required, and the usual Faculty Handbook criteria would be applied in judging qualifications. In this case, the appointment would...
require a faculty of the academic unit concerned. Such an appointment would be offered initially, and in even rarer cases, a tenured position at a senior rank would be offered, following the precedent of department heads or other senior academic administrators.

Staff Contracts for Administrators

Administrators who report directly to the President or to the Vice-President for Academic Affairs are issued faculty or staff contracts, as appropriate, on initial appointment and thereafter for each fiscal or academic year. When administrators serve only under authority of and with the approval of the President, their appointments are not governed by any consideration of tenure and a codicil to this effect shall be included in their contracts.

a. ADMINISTRATORS TO BE ISSUED STAFF CONTRACTS

Most administrators are appointed and confirmed by means of staff contract, and the Staff Handbook governs all such employment.

b. ADMINISTRATORS TO BE ISSUED STAFF CONTRACTS OR FACULTY CONTRACTS, DEPENDING UPON DESCRIPTION OF THE POSITION

Administrative positions in the academic area are sometimes offered to those who may or may not have established a tie to a regular academic department.

Teaching duties required by the position are usually minimal or less than half-time. Such positions are confirmed by staff contracts and are governed by the Staff Handbook. If a regular academic department offers faculty rank, that part-time rank is shown as a secondary title on the staff contract. If an employee who is primarily a staff member, also holds faculty rank in an instructional department, ONLY those aspects of the employee’s appointment dealing with faculty status are governed by the Faculty Handbook.

c. Faculty Contracts for Administrators are addressed in the Faculty section of the Manual, IV.14.

IV.15. Salary Increments

Salary increments shall not be given during the existing faculty contract. When faculty complete a terminal degree during a given contract period, the subsequent year’s contract may reflect an increased salary. Salary increments may be granted after evaluation of the credits or degree earned to determine if they relate to increased competence and value to the University. Such evaluation will be made and recommendations tendered to the President.

IV.16. Leave

Several different types of leave for full-time faculty members are authorized, including: sabbatical leave, military leave, sick leave, and maternity leave.

IV.17. Outside Professional Activities

Full-time members of the Faculty are encouraged to engage in outside professional
activities such as writing, consulting, lecturing, or activities of a similar nature which will enhance their professional growth or reputation, subject to the following:

1. Since the faculty member’s primary responsibility is to the University, all outside activity is considered secondary. Outside activities will be deemed excessive when, in the judgment of the head of department and the Vice-President for Academic Affairs, they are of an extent which interferes with the discharge of the faculty member’s full obligation to the University. An individual faculty member will usually consider himself or herself the best evaluator of how he or she is husbanding professional energies. Nevertheless, the member is enjoined to consult with the head of the department whenever there might be any doubt as to whether the sum total of

2. External obligations incurred could detract from the member’s ability to give adequate and continuing attention to primary University obligations. In any case, consultative assignments or other externally reimbursed professional activity shall not take the faculty member away from his/her teaching duties more than an average of one day per month during an academic year.

3. Outside professional activities shall not significantly conflict with classes, office hours, or other assigned duties and commitments. When outside activity does not involve absence from assigned duties and commitments, the faculty member is nevertheless responsible for keeping the head of department fully informed in writing about the nature and extent of any current outside professional commitments.

4. Except in cases specifically approved in writing by the President authorizing official University involvement, the faculty member, in undertaking such employment, shall act as an individual and not as an agent of the University and shall not use the name of the University nor official University stationary in connection with such work nor shall the faculty member solicit such employment through use of his or her University position.

5. The amount of earnings from outside activities is not a concern of the University; however, in order to avoid possible charges against the University of unfair competition, a faculty member should charge fees at least as great as would be charged by firms or individuals doing similar work, except when advice or services are given free in the public interest.

6. In undertaking outside employment, the faculty member shall not make use of the University facilities or personnel.

7. Great care should be taken to avoid a conflict of interest or appearance of conflict situation in carrying out any type of consultant or research activity.

8. When exceptions to this policy are necessary in the interest of the University, they must have the advance written approval of the Vice-President for Academic Affairs.

IV.18. Extra Compensation Paid by the University

Faculty members may occasionally receive extra compensation from the University for additional work done in connection with University-related activities provided that:
1. recommendation for approval is given by the appropriate head of the department and approval by the appropriate budget officer;

2. the work done for extra compensation does not in the opinion of the approving authority:
   
   a. conflict in time with regular University duties and assignments;

   b. constitute a “conflict of interest” situation for the faculty member.

3. the work for extra compensation, when added to any outside professional activities, does not take the faculty member away from his/her teaching duties more than an average of one day per month during an academic year.

IV.19. Visiting Scholars

As a matter of academic tradition and courtesy, the University welcomes on its campus scholars from other universities who, because of sabbatical or research opportunities, wish to spend a period of time on campus and to have official affiliation take the form of lectureships or visiting professorships. Appointment procedures follow regular administrative channels.

IV.20. Termination of Employment

The provisions for both voluntary and involuntary termination of employment of faculty members are contained in the Faculty Handbook.

IV.21. Emeritus Status

Emeritus status may be granted as a mark of special recognition to retiring or retired faculty or administrators with the approval of the Board of Regents.
CHAPTER V
Staff Employees

V.1. Definitions

The term “Staff” refers to those persons employed by the University and holding positions other than teaching and who do not have a faculty rank. For definitions of the various staff classifications, please see the Staff Handbook.

V.2. Policies applying to Staff Only

Other policies relating to staff may be found in Chapter 1 of this Manual, the WNMU Staff Handbook and in the Collective Bargaining Agreement.

The Collective Bargaining Agreement applies only to those employees in the bargaining unit. As stated in Article 5 of the Collective Bargaining Agreement (Agreement), “If any University policy, regulation or directive is in specific conflict with any provision of the Agreement, the Agreement provision will control.”

For more general information, several of the key policies governing the employment, promotion, corrective discipline, transfer, and termination of employment of staff members are described briefly immediately below.

V.3. Qualifications for Hiring, Promotion, and Transfer

All hiring, promotion, and transfer of staff shall be based on training, experience, and past performance.

Current employees shall be given preference in selection for promotion or transfer over outside applicants provided their qualifications, ability, and past performance are substantially equal as determined by the University. Seniority shall be given substantial weight when two or more employees possess qualifications which are substantially equal, as determined by the University.

Recognizing the need to help support the economy of the State of New Mexico and reduce the exodus of citizens who find it necessary to leave the state to seek employment elsewhere, the University endorses the employment of New Mexico residents.

V.4. Staff Contracts for Administrators

Administrators who report directly to the President or to the Vice-President for Academic Affairs are issued faculty or staff contracts, as appropriate, on initial appointment and thereafter for each fiscal or academic year. When administrators serve only under authority of and with the approval of the President, their appointments are not governed by any consideration of tenure and a codicil to this effect shall be included in their contracts.
a. **ADMINISTRATORS TO BE ISSUED STAFF CONTRACTS**

Most administrators are appointed and confirmed by means of staff contract, and the Staff Handbook governs all such employment.

b. **ADMINISTRATORS TO BE ISSUED STAFF CONTRACTS OR FACULTY CONTRACTS, DEPENDING UPON DESCRIPTION OF THE POSITION**

Administrative positions in the academic area are sometimes offered to those who may or may not have established a tie to a regular academic department.

Teaching duties required by the position are usually minimal or less than half-time. Such positions are confirmed by staff contracts and are governed by the Staff Handbook. If a regular academic department offers faculty rank, that part-time rank is shown as a secondary title on the staff contract. If an employee who is primarily a staff member, also holds faculty rank in an instructional department, ONLY those aspects of the employee’s appointment dealing with faculty status are governed by the Faculty Handbook.

c. Faculty Contracts for Administrators are addressed in the Faculty section of the Manual, IV.14.

V.5. **Management Rights**

Management and control of the University are vested in the Regents. Inevitably some of the responsibilities of the Regents must be delegated, and so is much of their authority to govern the affairs of the institution subject to overall policies which they establish. As limited by the applicable law, these policies, and other actions of the Regents, the Board recognizes and approves the authority and responsibility of the University President and Administration in all matters relating to the operation of the University, including:

a. to hire, promote, transfer, assign, and retain employees in positions within the University;
b. to suspend, demote, discharge, or take other disciplinary action against employees for proper cause;
c. to lay off employees from duties because of lack of work or for other legitimate reasons;
d. to maintain the efficiency of the operations entrusted to the administration;
e. to determine the methods, means, and personnel by which such University operations are to be conducted; and
f. to take whatever action may be necessary to carry out the functions and mission of the University.

For those employees who are subject to the Collective Bargaining Agreement, Article 9 of the Collective Bargaining Agreement sets forth Management Rights.

V.6. **Progressive Discipline**

Progressive discipline, as a method of dealing with unsatisfactory performance or misconduct of employees, is designed to provide the employee with an opportunity to become aware of and to correct the misconduct or substandard performance and restore the employee as a productive member of the work force.

Back to Top
Any supervisor may take progressive discipline with an employee under his or her authority, consistent with departmental policies which may require higher level approval. Depending on the particular circumstances and/or severity of an employee’s misconduct or performance, any step or steps in the progressive disciplinary process may be skipped.

V.7. **Termination of Employment**

Staff employees may be terminated from University employment for any of the following reasons:

- Resignation
- Discharge

This program is established to allow time for appropriate research, study, writing, and attendant travel; activity which is expected to benefit the university.

**Eligibility:** Persons applying for leave under this program will have been employed by the university in an administrative capacity (including other administrators who carry faculty rank) at the level of director or above for at least three years prior to the beginning of the leave period.

CHAPTER VI
The Student Body

VI.1. General

The Board of Regents recognizes and approves the right and responsibility delegated to
the students of the University to provide for their own self-government with authority
in the affairs of students in accordance with applicable law, these policies (as amended
and superseded from time to time), and other actions of the Board of Regents.

The Board of Regents ordinarily will not have actions which interfere with the rights
and responsibilities delegated to the students, but the Board is required by Constitution
and the laws of New Mexico to reserve, and the Board hereby does reserve, the
power to prospectively modify the authority and responsibility delegated by the Board.

VI.2. Admission

The Board of Regents is, by law, responsible for setting and ensuring the enforcement
of requirements for the admission of students to the University (See Sec.21-1-1 and 21-
7-10, NMSA 1978). The Regents have delegated, to the Faculty, authority and
responsibility to review and make recommendations in this regard.

Admission requirements must, at all times, be in accordance with applicable law, but they
are not to be regarded as a contract between the student and the University. The
University reserves the right to change any provisions or requirements at any time within
the student’s term of residence.

In conformance with federal and state law, it is the policy of WNMU that no applicant
for admission or student shall be discriminated against or harassed on the basis of race,
color, religion, national origin, sex, age, ancestry, physical or mental disability, serious
medical condition, spousal affiliation, sexual orientation, gender identity, veterans status
or any other basis prohibited by applicable law. This policy applies to all aspects of the
educational process, including admissions, recruitment, extracurricular activities,
financial assistance, housing, counseling, guidance, course offerings and housing.

Current requirements for admission to the University of all categories of undergraduate
students, including beginning freshmen, may be found in the current Western New Mexico
University Catalogue. Current requirements for admission to the University for graduate
students may also be found in the current WNMU Catalogue.

Additional requirements which govern admission to specific graduate and undergraduate
programs may be obtained from the academic units in which these programs are offered.

VI.3. Rights and Responsibilities

All students enrolled at the University have the same rights and responsibilities as
those of any other persons. It should be made clear, however, that all students, as
well as faculty members and other employees of the University are subject to the guidelines and stipulations about conduct, found in the University Catalogue.

The Associated Students have the right to draft their own Constitution for Student Government, which must be approved by the Board of Regents. Amendments to such Constitution will also require final approval by the Board of Regents before becoming effective.

Most matters of misconduct are handled informally by the Vice President of Student Affairs, who has been given authority by the Board of Regents to deal with disciplinary matters. The Vice President of Student Affairs may, impose the following disciplinary measures as defined in the student Code of Conduct: censure, warning, disciplinary probation, suspension, expulsion and/or restitution. The Vice President of Student Affairs may suspend a student without a hearing for up to five (5) days when he or she is convinced that the student’s continued presence on campus endangers persons or property or threatens disruption of the academic process.

VI.4. **Grievances**

Students having grievances against other students, faculty members, or other employees of the University are to be provided the opportunity to file and pursue their grievances through well-defined channels.

Student organizations using entirely self-generated funds and/or student government funds select advisors of their choice from the University faculty and staff.
All organizational events must receive prior approval of the advisor before any event may be held, organizational advisors are to be present at all events scheduled by the group including, but not restricted to, meetings, work sessions, rehearsals, activities, or performances.

When any student organization in the agency account has been inactive for two consecutive fiscal years, that organization’s account will be closed out and any balance will be transferred into the Grants and Aids account for student scholarships. The Fiscal Services Director will make every effort to locate existing clubs of a corresponding nature before such transfer of funds is made.
CHAPTER VII
Instructional Programs

VII.1. Establishing New Programs of Study

The Board of Regents of Western New Mexico University supports and encourages the faculty, staff and administration to be constantly alert to societal changes that may result in the need for new programs of study. Such potential new programs must be researched in great detail in order that all aspects of implementing such a program are well understood and consistent with the University’s Mission.

The President, in consultation with the Vice-President for Academic Affairs, shall develop a policy for establishing new programs of study, consistent with any requirements imposed by the Higher Education Department and the following guidelines.

1. A Curriculum and Instruction Committee shall be formed, that will be responsible for reviewing and making recommendations concerning new programs of study.

2. The Curriculum and Instruction Committee will make its recommendations concerning new programs of study to the Vice President for Academic Affairs.

3. The Vice President for Academic Affairs will study all materials submitted and consider the recommendation of the Curriculum and Instruction Committee. He/She will then make a recommendation to the President regarding the program.

4. To be considered by the Board of Regents for the next academic year the recommendation must be received in the President’s Office on or before February 1.

5. The President will review the recommendations from the Curriculum and Instruction Committee and the Vice President for Academic Affairs and will transmit a final recommendation to the Board of Regents for final action. The President will also inform the Board of Regents of the recommendation made by the Curriculum and Instruction Committee.

VII.2. Program Evaluation

The Western New Mexico University Board of Regents supports institutional autonomy in matters of internal management. Extended to program review, this autonomy means that WNMU assumes primary responsibility for developing a procedure for the review of its programs within the framework specified in this policy.

The WNMU program review process should support comprehensive approach, in which all
academic programs are evaluated on a regular basis. Campus-wide program evaluation shall be conducted to provide faculty, staff, administration and the Board of Regents with information about how well each program functions in relation to its objectives and the needs of the students, the University, region and state. An evaluation may provide justification for actions of the following kinds:

(1) Confirmation of the validity of the program.

(2) Reconsideration and possible redefinition of the program’s goals, purposes and objectives.

(3) Review and alteration of program content and structure.

(4) Reconsideration of priorities and allocation of resources and personnel for the program to include dissolution of the program.

Each program of the University shall be evaluated at least once every five years or more frequently as mandated by appropriate agencies. National, regional or discipline-specific accreditation reviews may substitute for institutional program reviews at the discretion of the Vice President for Academic Affairs. In addition, the VPAA may require review of a program whenever a serious concern is identified regardless of the five-year cycle date.

Although formal review may occur only once every five years, data collection should be ongoing in order to monitor and evaluate each program’s effectiveness on a continuous basis.

The program review process is divided into four stages: (1) the self-study by the department/discipline; (2) an internal university evaluation by the Graduate Council and/or the Curriculum and Instruction Committee, (3) an internal review by the Vice President for Academic Affairs; and (4) review by the Board of Regents.

The final Self-Study Report must include an overview of the department and discipline; responses to the program review criteria; and assessment of strengths, areas of concern, recommendations for action, and five-year goals for the program; basic program data for each criterion; and other pertinent financial or programmatic data.

The program review utilizes seven criteria to evaluate academic programs with the exception of programs in the School of Applied Technology and shall provide descriptive as well as factual information about the program and its department. Measures and patterns of evidence to satisfy the criterion below and to guide the self study process will be developed by the Office of Academic Affairs in conjunction with the Academic Council. The seven criteria are:

(a) program centrality — establishes the degree to which a program is congruent with the mission of the institution.

(b) the program curriculum and its structure — demonstrates cumulative development of knowledge within the discipline.

(c) the resources provided to the program — includes department level financial support services and the human resources of faculty and staff; assesses resources in terms of adequacy and quality.

(d) the productivity and efficiency of the program — such standards are closely linked to the discipline, methods and levels of instruction, elective courses offered, and
service courses provided for general education. Different standards will be appropriate for different programs.

(e) the quality and effectiveness of the program in reaching its objectives — while quality of resources allocated to the program may be addressed under this criterion, outcomes measures such as quality and placement of graduates, student performance as indicated by competitions and assessments, appropriate faculty contributions to their disciplines, and external evaluations by consultants have an essential role to play.

(f) societal demand and need for the program — appropriate measures here will include current student demand for the program, employer demand and career opportunities, societal need for the program, and related measures.

(g) duplication for the program within the state of New Mexico — appropriately addressed when new programs or extensions of existing programs are being proposed.

In the School of Applied Technology, successful industry certification will serve in lieu of the criteria (a), (b), and (e). The information required for these portions of a program review is contained in the application for certification. Applied Tech will address the remaining portions of the program review as specified in the program review outline.

The self-study or program review report should be reviewed/discussed with all department faculty before it is submitted to the Graduate Council and/or Curriculum and Instruction Committee and the VPAA.

The President will review the recommendations of all parties and will make his/her recommendation to the Board of Regents. She/he will also inform the Board of Regents of the recommendations of the Curriculum and Instruction Committee or the Graduate Council.

As necessary, the procedures for program review will be reviewed and modified by the VPAA in conjunction with the Curriculum and Instruction Committee and the Graduate Council. Notification of any such changes will be provided to the Board of Regents.
